

DEEP FAKE

Exploring Deepfake

Given my active engagement on social media, I've come across numerous memes featuring figures like Modiji and Ronaldo singing or dancing. These amusing creations piqued my interest and led me to discover the world of Deepfake. Intrigued by the potential for fun and creativity, I've decided to delve into this new technology and document my exploration. This journey won't end here I plan to provide regular updates on a dedicated Notion page whenever I stumble upon something interesting.
